

SURFACE MINING

TIGER® BiG T BRISTAR®

8 strand rope with Bristar® technology for dragline drag and hoist position.

- Bristar® encapsulated IWRC
- Exceptional service life
- High breaking load due to Dyform® outer strands
- Excellent resistance to wear
- Reduced wear and rifling in the drum and sheave grooves
- Even load distribution
- Reduced internal friction Increased bend fatigue
- Elimination of grit and dirt due to Bristar® core
- Increased torsional stability
